

Charleston County Contribution Program(s) Descriptions

The Charleston Contribution Program offers three (3) distinct funding streams. Organizations are encouraged to apply for all available sources of funding, however; each of the programs provide awards for different purposes that require varying eligibility criteria. Hence, just because an organization applies does not guarantee they will satisfy the County's eligibility requirements. Please see the below description of each of Charleston County's Contribution Programs.

Community Investment

The Community Investment Program is designated for organizations that provide community-based programs and services within Charleston County.

Local Accommodations Tax

The Local Accommodations Tax Program is designated for organizations that advertise and promote tourism for the benefit of Charleston County.

State Accommodations Tax

The State Accommodations Tax Program is designated for organizations that perform renovations, and/or maintenance of tourist-related buildings or facilities. The organization must own or directly and entirely maintain said facility.
